I am a resident of New Delhi and was suffering from Acidity problem for almost 20 years. I was taking medications for years and didn't find a permanent solution. I was very much worried about my health. I was suggested by my colleague to meet the Empower India Movement leader Mr. S. N. Ventakesh. I met him and he explained about **Indian Noni** and its health benefits. I believed in his words and bought a bottle. **I took Indian Noni as advised and found that my acidity problem got solved.** It is the power of **Indian Noni**. I recommend it all my friends and relatives.
