

Diabetes and Poor Vision

Name : K. Pentaiah

Age : 52 years

Sex : Male

Place : Golla Guda,

Secunderabad, AP

I am Pentaiah from Secunderabad. For the past six years I am a known Diabetic. I was always found to be very weak with severe body pain all the time. I was also losing weight drastically and my vision was becoming poorer. And due to my diabetes, my serum creatinine levels were very high. One day my doctor, Dr. Satish Kumar suggested to try **Indian Noni** along with my other medication. I was glad to try anything that would help me in anyway. Now I have been taking Indian Noni for the last three months and to my surprise, **my serum creatinine level has decreased and my blood sugar test results have showed all the parameters to be normal.** Further, **my eyesight is definitely better. Indian Noni** is really very good and it is worth trying.

Gastric Problem and Poor Vision

Name : M.R. Swamy

Age : 63 years

Sex : Male

**Place : Manjusree Nilaya, B L Gowda
Nagar,**

NH4 Road, Hiriyyur, Karnataka

I am a 63 year old retired, KEB employee from Karnataka. I had severe Joint Pains, Skin Allergy, Gastric Trouble, Back Pain and Poor Vision with discharge from the eye. All this had made me feel very weak. A friend of mine, Mr. B.R. Ranganatha introduced me to **Indian Noni** in October 2003. After drinking it for more than three months, I am a healthier man now. **My joint pain have reduced by 60% and my Skin Allergy has reduced by 80%. The Gastric Problem and my Back Pain has completely disappeared.** And to add to this wonder, **I can see clearly now, and the discharge from my eye has stopped. Indian Noni** is truly nature's gift and it is very good for all. It has changed my life - and I'm sure it will change many others' lives too !
