I don't know when I contracted this dreadful disease. I found I was very weak with a high frequency of skin infections, loose motions and vomiting. I was also losing weight and had become depressed. Ms. Sujatha Raman is the person who introduced me to **Indian Noni**. She said that along with her counselling I should also drink Indian Noni to improve my levels of immunity. After 4 months of consuming Indian Noni, I feel much better. **I have stopped losing weight and my skin infections are showing improvements.** The frequency of my loose motion had also come down. My CD4 and CD8 counts have improved too. It is hard to believe, but true - **Indian Noni** has done me a miracle !

Four months ago I was tested positive for HIV. My whole life came to a standstill. I was totally devastated and heart broken. I became very weak, and lost a lot of weight. I was in such a bad state that I had no intention to live anymore. At this sad juncture, a friend of mine introduced me to Ms. Sujatha Raman. She was a guiding light for me with her vigorous counselling. She is also the one who put me on to **Indian Noni**. After consumption of Indian Noni for the last 90 days, I can't believe the results ! **My CD4 & CD8 counts are improving and I feel encouraged to take care of myself.**

Thanks to precious Indian Noni, I want to stay as happy as possible as long as I live !

During my routine pregnancy test I found that I was infected with the HIV virus. I was extremely devastated. I wanted to end my life before the deadly disease took over. I was called in for counseling sessions. I learnt all about AIDS, about the virus that causes AIDS and how it starts to destroy your immune system and eventually kills you. During one of the sessions, I was told about **Indian Noni**, the life saving liquid. Later I also learnt that **Indian Noni** has done lot of miracles to very many people. I started drinking **Indian Noni**. Now I have completed 4 months of intake of Indian Noni, and **I feel active and better**. I want to be happy as long as I live. For me **Indian Noni is the only hope**.

Once my friend had taken me to one of his friends' house to see a patient. There I met a person who was lying on a bed. I was told that he is diagnosed as HIV positive and needs someone's support even to go to toilet. I also learnt that the family had spent more than Rs. 1.5 lakh for his treatment. I was very much moved. I recommended **Indian Noni** to him. He started consuming **Indian Noni** from January 2004. In the mid of April 2004, I received a call from them to visit their home. When I went there, I saw the same bed ridden person, had put on some weight and was able to walk on his own. I was thrilled. He shook hands with me and said, "Doctor ! your Noni juice had worked for me, now I can ride my bike and go to work". His family who had totally lost faith saw the light at end of the tunnel. They blessed me in gratitude and the joy of that moment cannot be expressed in simple words. He now grows from strength to strength and regularly takes **Indian Noni**. Inspired by this result, now I am recommending Indian Noni to more than 20 patients through a local NGO.

In the month of November 2003, I had fever and cough. I felt extremely weak. I had lost almost 10 Kgs in a very short time. I went to the doctor and he gave me medicines for fever and cough. Even after 20 days, I was not relieved from fever and cough. My doctor advised me to go for a blood test. My blood test report had that 'shocking' news ! The report revealed that I was 'HIV positive'. The news came as a bolt from the blue..... I did not sleep that night and I started worrying about my children's future. Not finding a solution to my fever and cough, but with an added inner turmoil, on the next day, I met one of my good friends and confidentially shared with him about that shocking report. He took me to a **Indian Noni** consultant Mr. Ramesh Kinnal. He patiently explained to me how **Indian Noni** strengthens the immune system. I understood the miraculous power of **Indian Noni** and started consuming it the same day, on 19th December 2003. On completion of three **Indian Noni** bottles in a span of two months time, **my body weight has increased by 3 Kgs**. I was feeling very fresh and I was **fully relieved from my fever and cough**. As on June 23, 2004, I have completed seven bottles of **Indian Noni**. I have gained 10 Kgs more and my body weight is 66 Kgs. I have already started feeling that I am out of danger. I have decided to take **Indian Noni** throughout my life. I thank God for giving me the gift of **Indian Noni** through Empower India Movement. Thanks to Indian Noni, the savior of my life !
