

Allergy, Constipation and Restlessness

Name : Chaya Raj

Age : 52 years

Sex : Female

Place : Hiriyur, Karnataka

One decade had gone by and still all the medication I had tried hadn't relieved me of my skin allergy. I was allergic to the rays of the sun, oil, and other weather conditions. These would cause discolouration of my skin. PMS also was causing me stress, body ache, joint pain, and heaviness of body. I was gastric and had constipation. I had no appetite and was mentally restless as I was also an insomniac. This made me physically very tired. Our family friend Dr. H. L. Nagaraj introduced me to **Indian Noni** health enhancer and dietary supplement to improve the immune power of my body cells in order to gradually get rid of my problems and to enjoy a normal healthy life. After more than a month of drinking **Indian Noni**, **I have observed that the dryness in my mouth and burning sensation of my throat have reduced. I have no constipation. I have free bowel movement.** I feel relaxed as my tiredness & restlessness has reduced. I get good sleep and I feel much better. **Indian Noni** is a divine health fruit juice. I thank my creator whole heartedly for relieving me of my suffering through **Indian NONI**.
