**Place : Yachavalcom (po), Ardhaveedes,

I was suffering from frequent bleeding from nose. The black patches on my thighs were causing irritation and itching. I contacted an ENT specialist and other skin specialist doctors. They told to me that this is because of the shortage of white corpuscles. They injected white corpuscles in my body three times but they were of no use to me. Mr. Syed Hegari, the distributor of **Indian Noni** at Cumbum contacted my family members and advised me to drink **Indian Noni**. I started **Indian Noni** from 02/03/2004. I took it continuously and now I am healthier. Indian Noni works better for me. It is really great.
