

Spinal Cord Problem and Back Pain

Name : Manthri Vijaya Lakshmi

Age : 25 years

Sex : Female

**Place : D. No. 7 – 1 – 54, Opp. Kotak School,
Chinewa Hair (P O), V.S.P. – 17, A. P.**

I am a housewife and for the past five years I have been suffering from pains at my spinal cord. I used to have severe backache too. I was carrying on my regular household activities without complaining about this too much. But the inner struggle had become a part of myself. One day, one of my relatives, Mr. Srinivasa Rao sensed my struggle and introduced **Indian Noni** to me through the support of Mr. Sastry. I am taking **Indian Noni** for the past two months as per the directions given to me. **Now I am feeling all right.** I will surely continue this tonic in the days to come too. I will also introduce Indian Noni to my neighbours, elders and children. **Indian Noni** is the best food supplement, A Health Food for the next generation. It is my healthy friend who blesses me with Good Health.

Spondylitis and Diabetes

Name : Chandra Mohan Irani

Age : 40 years

Sex : Male

Place : 87, KHB Colony, Nittuvalli

Road,

Davanagere, Karnataka

I am the owner of a small-scale industrial unit. Due to the work pressure, I had developed Spondylitis, which made me reduce my working hours. I was also suffering from frequent urination during nights at irregular intervals. I was feeling pain at the bottom of the foot too. Recently, I had spotted a black mark in the eye.

It was at that juncture, my friend Mr. Venkatesh introduced me to **Indian Noni**. He was a leader in Empower India Movement. **I took Indian Noni for 6 months and felt all my side effects of Diabetes and Spondylitis were gone. My FBS reduced from 160 to 105. My confidence had been built and I have become very enthusiastic in my day to day life.** Truly, it is a God-sent tonic to mankind.
