Assam-7833480

I was suffering from a host of diseases for the last 10 years and had become a chronic patient of B.P, Diabetes and Bronchitis for the last 5 years. It was during May 2003 I was hospitalized at cooch Bejar Nursing Home when I was diagnosed with T.B. along with my existing ailments. In a month the expenses were more than a lakh of rupees. I was literally on a deathbed and was discharged from Nursing Home

It was during May 2005 my relative Shanti Sarkar of Maynaguri introduced Indian Noni to me. I started taking the same along with my medicines of Diabetes, High B.P and bronchitis. I got freed from my ailments in 1<sup>st</sup> bottle of Noni itself.
