I am a housewife and I have been suffering from giddiness and breathlessness for the past 5 years. In such condition I had done a thorough investigation and doctors advised medicines.

I was introduced to Indian Noni by Mr. Pandurang Jagtap and he advised me to take Indian Noni continuously.

Now it is more than a month I have no giddiness or breathlessness. Also I am energetic the whole day which helps me in getting my household job done more easily and also enjoyable.

I thank Indian Noni.
