I was suffering from Haemoglobin deficiency and respiratory problems. Also I was suffering from frequent illness.

I started Indian Noni as Health enhancer, After 3½ of months of taking Indian Noni I am totally free from haemoglobin deficiency. Previously it was 8.5 mg now it is 11 mg.

The respiratory problem has also solved about 80%, Now I am not suffering from any illness. I feel so energetic and healthy.

Thanks to Indian Noni and Mr. Prakash G. Vibhandik who has introduced Noni to me.
