I was suffering from Hepatitis B (Jaundice) for the last 7 months.

Due to this I lost weight and had numbness of hands.

I spent a lot of money but there was no improvement.

One day Mr. Goshavi, Sri Nana Thakkery introduced me Indian Noni and advised me to take it.

I started consuming Indian Noni from 2005 and I could see day by day improvement. I am happy to get the change.

Indian Noni is a nector of health.
