I am S.P. Kale working as a Teacher. My son Rajat was suffering from motion problem. I consulted many Doctors and they suggested Dulcolax and enema. He also underwent 2 operations for this. Still his condition was not improved.

Then I started giving Indian Noni twice daily. Within 10 days my son's motion's problem has solved. Now he is not taking any medicine.

My son is very active now and his skin also shining. Now I am very proud to share this Noni experience with everyone.

Indian Noni has got a great divine power for mankind.
