Andhra Pradesh

I was suffering from retinitis pigmentosa, chronic eye problem. Due to this I had only partial vision and could see in one eye only. I had knee pain, back pain and general weakness. I was unable to climb just three steps.

My son Mr.B.V.Dhananjai Kumar introduced me Indian Noni. After using Indian Noni my knee pain, back pain got subsided.

Now I am able to do all my household work. I am happy and healthy, playing a lot with my twin grand daughters aged 16 months.

They too love Noni and take daily. Now I am climbing steps without difficulty. My thanks to Indian Noni. I became a member of Indian Noni family. I wish Indian Noni all success.
