Before taking Noni my body condition was very bad. I was in bedridden condition for the last 8 months.

The pain in spinal cord was very severe. Because of that I was not able to sit, stand and I was not able to sleep properly. Doctor advised me to undergo operation.

Then I met my God Father Prof. Dr. P. I. Peter. He advised me instead of operation. I started to take Indian Noni.

Now my feelings are very happy. My health permitted me to work and I am attending my duties.

Indian Noni is not a medicine. It is a food supplement. It is a AMRUTHAM.

It saved my life. Thanks to Nature. Thanks to Dr. P.I. Peter.

Thanks to Health India Laboratories.
